3500 Pan American Drive, First Floor  
Miami, Florida 33133

**Re: Response to Request for Proposals to Furnish, Install, Operate and Maintain Traffic Infraction Detector Program – RFP No. 09-10-026**

Dear Ms. Thompson and Members of the Selection Committee:

American Traffic Solutions™ (ATS) is pleased to submit our response to your Request for Proposals to Furnish, Install, Operate and Maintain a Traffic Infraction Detector Program. ATS has read and complies with all of the requirements of the City's RFP.

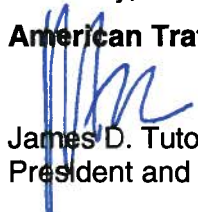

We are proud to submit a number of key, high-value differentiators which will be advantageous to the City of Miami:

- Fully equipped solution that includes an in-house Automated Violation Processing and Customer Service Operations;
- 170 operational Intersection Safety Camera (a.k.a. red-light camera) systems in Florida;
- Regional office in nearby Fort Lauderdale and field service staff in the Miami area, along with our offices in Brandon and Tampa, which includes our inventory warehouse of equipment;
- For the past three years, we continuously focused on legislative efforts in Tallahassee in supporting Florida Law 2010-80;
- Currently working with the Miami-Dade County Court regarding the Notice of Violation template and integration with the Court's system
- Dedicated local resources; 785 employees nationwide, including more than 25 employees in Florida fully dedicated to Intersection Safety Camera programs; and a minimum of four local subcontracting firms that understand state and local permitting requirements;
- A 16-megapixel Intersection Safety Camera system that generates a high level of prosecutable images;
- Single point-of-contact through your dedicated Program Manager, who has been responsible for the implementation of seven Florida programs including Coral Gables, Homestead and Collier County.

We appreciate that your selection of a flexible, efficient and high performance Intersection Safety Camera solution is a key component of Miami's aim to achieve safer roads for people who live and drive in Miami. Our proposed solutions will allow the City to successfully meet its goals. It would be a privilege to be of service.

Sincerely,

**American Traffic Solutions, Inc., a Kansas corporation**

James D. Tuton
